Career Objective

Aspiring IT undergraduate with hands-on experience in Java Full-Stack Development, Python, and AI-driven application development. Built end-to-end software solutions and offline AI-based systems, including real-time productivity analysis platforms using data-driven methodologies. Strong foundation in software engineering, backend systems, databases, and intelligent application development, complemented by UI/UX knowledge and problem-solving skills. Seeking opportunities to contribute to innovative software and AI solutions.

Education

B. Tech Information Technology, Rathinam Technical Campus, Coimbatore.

2023 – 2027

CGPA - 8.4%

Technical skills

JAVA, PYTHON, JAVASCRIPT, ML, HTML, CSS, POSTGRESQL

Projects

AI-Based Time Tracking System (Full Stack + Offline AI)

- Built a full-stack application using Java Spring Boot with an integrated offline AI model to track user activity and analyze productivity in real time without internet dependency.
- Developed REST APIs and managed PostgreSQL, enabling intelligent time tracking, behavior pattern detection, and automated productivity insights.
- Optimized system performance and ensured data privacy by processing all activity analysis locally without cloud dependency.

Experience

Internship, TechnoHack Solutions

- Worked at a company focused on cybersecurity solutions and technologies

Certifications

- AWS Cloud Essential Certification

Soft Skills

- Good teamwork
- Time management

Languages

- English
- Tamil
